### AMUSEMENT NOTES.

"Madam X" Great Play, Coming to the Barre Opera House Wednesday.

"Madam X," the greatest of all dramatic hits—the drama of mother love—which ran for two years in New York and for nearly one year in Chicago and Boston is booked for an early appearance in this city. The company is a very large one and the scenic equipment very heavy, consequently they are playing but few of the one night stands, the local management had to guarantee quite a sum of money to get them to play here. "Madam X" with the original production, the same that played the larger cities, will be seen here on Wednesday, Oct. 18 at the Barre opera house and an early booking of seats is desirable to insure against disappointment as the out of town orders for seats is very heavy.

"Baby Mine," October 20.

A comedy that keeps an audience in convulsions of mirth will be presented at the opera house on Friday, Oct. 20 and in all probability it will linger in the memory of those who are fortunate in securing seats as one of the most widely laughable plays that ever set a house in an uproar. "Baby Mine" is the play and is under the management of William A. Brady for the Barre opera house and is now creating a furore at Sir Charles Wyndham's Criterion theatre, London. Arrangements have been consummated for the presentation of "Baby Mine" in Paris, Berlin, Vienna, St. Petersburg, Madrid, Australia, South Africa and South America.

Averts Awful Tragedy.

Timely advice given Mrs. C. Willoughby of Marengo, Wis. (R. No. 1), prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by the Red Cross Pharmacy.

### COATESVILLE CASE.

Two More Alleged Lynchers Are Acquitted.

West Chester, Pa., Oct. 13.—Albert Berry and William Gilbert were acquitted Wednesday afternoon. They were charged with murder for their alleged share in the death of Zach Walker, the negro who was burned at the stake in Coatesville.

This makes seven acquittals out of seven trials, with two men still under indictment. Jack Miller, who was in the posse that pursued and finally cornered Zach Walker in the tree where he shot himself, corroborated Berry's testimony of Tuesday night, declaring that both he and the defendant had counselled the members of the posse against lynching Walker when there was talk of it. The witness was asked by Judge Butler whether Walker at the time looked like a fit subject for a lynching.

"No," replied Miller, "I thought he was dead." Both sides rested their case at 11:30, and Thomas Lack, counsel for the accused, asked Judge Butler whether he thought there was enough in the case to let it go to the jury. "I am certainly of the opinion that there is," declared Judge Butler. Mr. Lack began his address to the jury by quoting a passage from the Bible. He declared that Berry and Gilbert were innocent and that it was only popular outcry that was endeavoring to send these men to the gallows or saddle them with a crime of which they were innocent.

### GRANITEVILLE.

Don't forget the Woodmen dance Saturday evening, Oct. 14. All are cordially invited. The members of Robert Emmett court, No. 564, C. O. F., Graniteville, are requested to be present at Miles' hall Friday morning at 7:45 for the purpose of attending the funeral of Brother Arthur Letourneau.

### EAST BARRE.

There will be a dance in opera house hall Saturday evening, October 14. Dancing from 8 to 12. G. Paton, floor manager. Good music. Admission 50 cents.

### GETS A DIVORCE.

And Mrs. George Randolph Chester Receives Heavy Alimony.

New York, Oct. 13.—Mrs. George Randolph Chester has been granted a divorce from her husband, the well-known story writer. Friends had known for some time that the couple had separated, but news that an interlocutory divorce decree was signed Wednesday came as a surprise yesterday.

Mrs. Chester named a young woman whom she said her husband introduced at his apartment here last spring as his wife. Chester denied all his wife's allegations.

Mrs. Chester will receive \$1,000 a year alimony and the royalties from the play, "Get Rich Quick Wallingford," besides an allowance of \$2,400 a year for their two sons until they reach the age of 25. The Chesters were married at Davenport, Ia., in 1905.

### WILLIAMS FOR WILSON.

Mississippi Senator Says Governor is the Strongest Man.

Meriden, Miss., Oct. 13.—"Gov. Woodrow Wilson of New Jersey ought to be nominated for the presidency by the Democrats next year," said United States Senator John Sharp Williams on Wednesday.

Senator Williams made the statement when asked who he thought was the most available candidate.

"Gov. Wilson is the most available man the Democrats can name," continued the Senator. "He would poll practically the full strength of his party, and against Taft he would get thousands of votes from the Republican progressives."

### Threat Made Good.

New York, Oct. 13.—True to a threat of suicide in a letter written Wednesday, Harold Bruff, a young lawyer, was found dead with a bullet hole in his head and a revolver beside him yesterday.

### German Will Die.

Rheims, France, Oct. 13.—The condition of Aviator Andre Germain, who was injured in an accident Wednesday, is considered hopeless.

## GAINED 30 POUNDS

In Wasting Diseases Your Weight Is the Index of Your Condition.

If you are suffering from lack of blood, or anemia, read this true story of the symptoms of a typical case and of its cure by Dr. Williams' Pink Pills for Pale People, as related by Miss Kathleen Lee, of Jefferson, Mass.

"Some years ago," she says, "I was run down to a mere shadow through suffering from anemia. I was sick for ten years from the time I was a young girl and was often confined to bed. My lips and ears were without a particle of color and I was pale and thin. I had an awful cough, my nerves were weak and many nights I could not sleep at all. My appetite was poor, my eyes troubled me, there being black clouds before them and I grew very despondent. I had to give up work and was in this condition until about three years ago when I began to take Dr. Williams' Pink Pills for Pale People.

"I was treated by doctors for a long time but they didn't do me a particle of good. Dr. Williams' Pink Pills for Pale People were recommended to me by a druggist and also by a friend who had used them with benefit. I bought three boxes and after taking these felt so much better that I kept on taking them regularly for quite a while. I couldn't be in better health than I am now and my friends often ask me what has made me look so well. I eat heartily, can do a good day's work and my nerves are strong. Since taking the pills I have increased my weight from 90 to 120 pounds."

There must be no guess work about the treatment of pale, anemic girls. Mistakes or delay in the treatment may result in such a serious impairment of their health that they will be weak and sickly during the rest of their lives. In this disease there is a loss of richness in the blood and an entire inability of the system to make good this loss without careful treatment. The most satisfactory way to give the blood the element which it lacks is through Dr. Williams' Pink Pills for Pale People. A thorough, persistent trial will restore the blood to its normal richness and health.

A new edition of our booklet, "Diseases of the Blood," will be sent free on request to any one interested. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50c. per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

### MANUFACTURED GRINDSTONES.

Official Figures Show Increased Products of Abrasive Materials.

Over \$3,000,000 worth of abrasive materials were produced in the United States last year. All branches of the abrasive industry showed notable growth except the millstone and the grindstone industries, according to W. C. Phalen, of the United States geological survey, in an advance chapter from mineral resources of the United States, 1910.

The total estimated value of all the abrasive materials consumed in this country last year was \$4,254,062, of which \$9,010,835 worth were of domestic production. Although there was a decrease in the production of millstones and grindstones, the grindstone industry is stated to be in a healthy condition. The falling off in the production of millstones is due to the introduction of superior forms of grinding machinery, such as rolls and ball mills. In grinding wheat the rolling mill process is now used almost exclusively.

### Increase in Artificial Abrasives.

Abrasive materials may be divided into two classes—natural and artificial. The production of artificial abrasives has shown great increase since they were first made, less than 15 years ago, and at the present time it exceeds that of the natural abrasives. During 1910 natural abrasives valued at \$1,406,805 were produced in 21 states. Of these materials, grindstones and pulp stones led with a production valued at \$766,294. The states which produced grindstones are Ohio, Michigan, West Virginia, and Colorado—Ohio producing more than seven times as much as all the other states combined. The imports of grindstones and pulp stones increased in 1910, amounting to \$106,596 compared with \$99,153 in 1909.

The production of burrstones and millstones in the United States in 1910 was valued at \$28,217. The stones came from New York, Virginia, North Carolina, Pennsylvania, and Alabama. The value of the production of New York alone in 1910 was \$13,753, nearly half that of the output of the entire country. As indicative of the steady decline in the millstone industry, it may be stated that in 1880 the value of the production was \$200,000. By 1887 the figures fell to \$100,000; in 1900 to \$32,838.

The production of oilstones and scythe stones in 1910 amounted to \$228,694, compared with \$214,019 in 1909. Oilstones were produced in Arkansas, Indiana, and Ohio, the production of Arkansas amounting to nearly 75 per cent. of the whole. Scythe stones were produced in New Hampshire, Vermont, Michigan, and Ohio, New Hampshire furnishing nearly 65 per cent. of the whole.

Garnet An Important Abrasive. Garnet is one of the very hard minerals, and is extensively used as an abrasive. The production of abrasive garnet in 1910 amounted to 3,814 short tons, valued at \$113,574. This was an increase of 842 tons, or 28 per cent. in quantity, and of \$11,259, or 11 per cent. in value. The industry is practically confined to New York, but a small production was noted in North Carolina and New Hampshire.

In the class of artificial abrasives are included carborundum, aluminum, and crushed steel. The production of artificial abrasives in 1910 showed an increase of 2,559,000 pounds in quantity and of \$238,210 in value, as compared with 1909. Aluminum Furnishes New Abrasive. Mention is made in the report of a new artificial abrasive, "corundum," manufactured abroad, which has recently been put on the market. The material is produced from the slag resulting from the reaction between aluminum and chromium oxides. It is practically pure alumina containing a trace of chromium oxide, which gives it a red color. On account of the high temperature at which it is manufactured, it is free from combined moisture. It is produced in three grades, coarse, medium and fine—and is sold only in the proportion of two parts coarse to one each of medium and fine. A copy of Mr. Phalen's report may be obtained without cost on application to the Director of the Geological Survey, Washington, D. C.

### WAITSFIELD.

Funeral of Almon Joslin Held Wednesday—Deceased 92 Years Old.

Almon Joslin died at the home of his grandson, Bertrand L. Joslin, in this town, Oct. 9, aged 92 years. He was the eighth generation of Thomas Joslyn, who came from England in 1635, and whose offspring spread through the New England and western states with quite a large number in Waitsfield, being among the leading citizens and staunch business men of the town. Almon Joslin was one of a family of thirteen and the last one to die. He took an active part in the business affairs of the town and faithfully filled the office of overseer of the poor for forty-five years. Mr. Joslin leaves two sons, E. E. Joslin of Montpelier and F. R. Joslin of Omaha, Neb., and three daughters, Mrs. E. C. Persons of Northfield, Mrs. L. D. Savage and Mrs. C. H. Newcomb. They have lost a kind and loving father, respected by all who knew him. Funeral services were held at the home of R. S. Joslin Wednesday afternoon, Rev. W. A. Remele being the officiating clergyman. T. J. Ferris had charge and the bearers were Jesse and B. L. Joslin, Ferd and Ned Newcomb. Interment was on the common.

J. C. Kingsbury has purchased a new piano.

A son was born to Mr. and Mrs. John Buzzell, Oct. 11.

Some of the residences in town are being wired for electric lights.

Dr. Howard is moving into the house he purchased of M. J. Waterman.

V. D. Griffith has sold his farm near A. E. Meluron's to G. L. Learned for \$2,000.

Mr. and Mrs. Samuel Baird of Waterbury visited friends in town Friday and Saturday.

Mr. and Mrs. V. C. Pierce are rejoicing over the birth of a daughter, born Sunday, the 8th inst.

Several public spirited citizens have spent some days grading and improving the village school campus.

Miss Louise Folsom is suffering from an attack of appendicitis. Her mother and sister have been with her in Morrisville, where she has been attending school.

The young people of the Congregational church will give an entertainment, consisting of music, farces, readings, etc., in the vestry of the church Friday evening, Oct. 13. Good home talent ensures a good time. All are invited. Come and have a good time.

### RANDOLPH.

Mrs. J. L. Howells is at Mrs. N. C. Greene's, having arrived from Boston and Lawrence, Wednesday.

C. L. Holman has sold three big teams in the last week to go to Rochester and the price paid for them, was \$1,500.

About 20 of the fire company went to Barre on Thursday morning, having entered in the running race held there on Columbus day.

Miss Gladys Swan of West Brookfield, who has been living at A. E. Kendrick's, is now at the sanatorium for treatment for some disease of the nose.

Dana Church has finished a season's work at Bar Harbor, Me., and is to remain at home with his parents, Mr. and Mrs. Warren Church, for the present.

Mr. and Mrs. A. W. Chesbro from Springfield, Mass., arrived here Wednesday and are guests of their son, Rev. J. W. Chesbro, and family, for a few days.

Mrs. R. J. Kimball and her daughters, Misses Clara and Annie Kimball, left Thursday for their winter home in New York, and Montague place is closed for the season.

Mr. and Mrs. Fred W. Curtis and children left Tuesday night for Bayhead, N. H., in answer to a summons from there, announcing the serious illness of Mrs. Curtis' father.

A. G. Osgood and L. L. Dickerman arrived Friday from Vancouver, B. C., the former having been engaged since May overseeing the operations of a lumber company in which he is interested.

F. M. Leavitt, who returned from Leominster, Mass., with a gang of men, has an order for several carloads of granite this fall and when they are filled the Beedle quarry will be closed for the season.

Crosby, the 11-year-old son of Mr. and Mrs. L. Sargent, who have been in Graniteville this summer, was operated upon for appendicitis at the sanatorium here last week from which he is making a rapid recovery.

Mrs. E. S. Abbott and her sister-in-law from Montpelier started Sunday night for New Haven, Conn., and Boston. At Concord, N. H., they were joined by Miss Celia Williams, who will accompany them on the trip.

The Demeritt & Palmer Canning company have finished the canning of corn and Thursday began the work of canning squash and pumpkins, and already about 225 tons have now been drawn and left in a large pile in the rear of the husking shed. It will be necessary another year to cut down the amount of acreage or increase the facilities for canning corn, and the latter plan will probably be adopted. It is also expected that next season this company will add a canning outfit for apples.

Sixty-Ninth Body Recovered. Austin, Pa., Oct. 13.—The body of an unidentified woman was found yesterday near the ruins of the Emporium Lumber company's mill, one and one-half miles from Austin. This is the 69th body recovered out of a possible 77.

### CURES CATARRH

Antiseptic, Healing, Mentholatum Quickly Kills Catarrh Germs.

Catarrhal troubles can be cured only by an antiseptic treatment that kills both the catarrhal germs and soothes and heals the irritated mucous membrane. Apply a little Mentholatum to the nasal passages at night and while you sleep the treatment does its healing work and at the same time kills the catarrhal germs. Its action is almost immediate; the first night's treatment gives you great relief.

You can buy a 25-cent jar of Mentholatum from any druggist with guarantee of money back if it does not do all that is claimed for it. This is the most economical treatment for catarrh that was ever known, as one package will last two weeks or more. Every home should have a jar of Mentholatum, as it is invaluable for all cases of inflammation, soreness, etc.

Uneeda Biscuit never disappoint!

You have never heard anyone say—"The Uneeda Biscuit in that last package were not as good as usual."

You have never said it yourself.

It is one thing to make soda crackers that are *occasionally* good.

It is quite another thing to make them so that they are not only always better than all other soda crackers, but *always of unvarying goodness.*

The name "Uneeda"—stamped on every one of them—means that if a million packages of Uneeda Biscuit were placed before you, you could choose any one of them, confident that every soda cracker in that package would be as good as the best Uneeda Biscuit ever baked.

5c a package—never sold in bulk.
